

Let us Introduce Ourselves!

T & T House Moving and Heavy Rigging is a Florida based company started by Tim and Cindy LaRue with son Timmy and daughter Melissa.

Specializing in the relocation of all type structures; historical, brick or block on slab, wood frame, industrial machinery, bridge moving and shoring, mining equipment and boats; including foundation repair and elevation due to settling or storm damage. We offer "Turn Key" projects.

Our company was established on the simple principle of quality workmanship, great customer service and competitive pricing. We are family owned and operated, 3rd generation structural movers with over 40 years of personal specialized experience, fully Licensed, Bonded and Insured.

"Outstanding website. We were able to view their portfolio over the internet. Multigenerational family operation. Preservation of the home & move costs were top concerns. Other movers refused our 2-story house outright. T&T moved it as a matter of routine."
